

Providence Data Sharing

Health Information Exchange

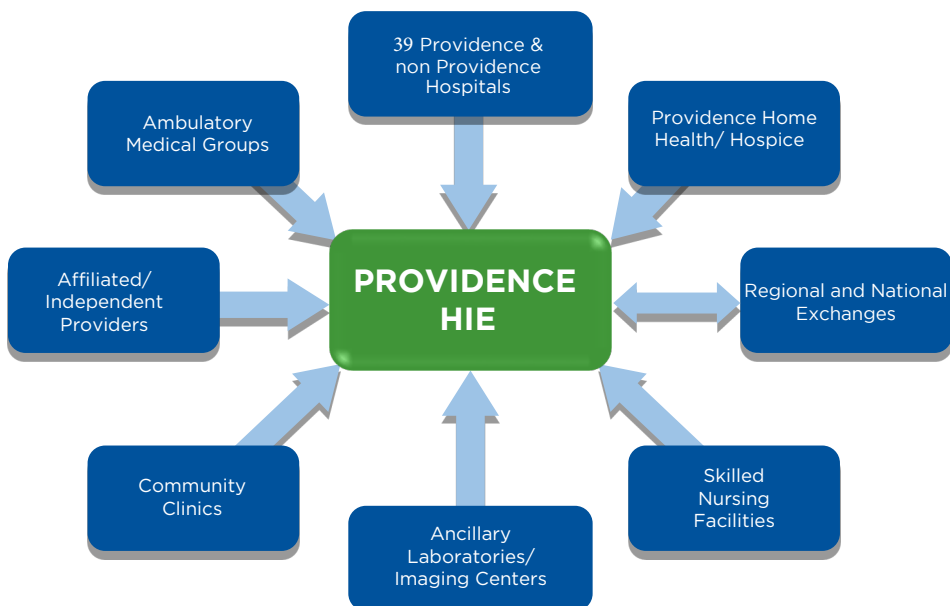

What is HIE?

HIE (Health Information Exchange) is the secure electronic sharing of health-related patient information between multiple healthcare facilities. This secured sharing of health data allows patients and physicians to ensure that essential information is available when and where it is needed.

BENEFITS OF HIE:

- Up-to-date patient health data
- Quickly and Easily access patient information from anywhere and at any time
- Provides support tools for effective clinical decision making
- Reduces “chasing down” medical records
- Reduces faxing and phone calls
- Reduces medication and medical errors
- Reduces duplicate and unnecessary testing
- Spend more time with patients
- Increases efficiency in patient care workflows
- Safe, secure & protected exchange of patient data - HIPAA compliant

DATA SOURCES
